

# SERVICE BULLETIN

**Date:** 8/14/1995

**Number:** SB9508-14

**Subject:** Service Bulletin 9507-26 concerning water/antifreeze mixture

---

---

**Details:**

Water level should be checked daily. When doing this, you should also pull radiator screen to check for debris between radiator and screen. If using a pressure washer to remove debris from the radiator, avoid direct contact with cooling fins on the radiator as it may cause damage to the fins.

Thank you,  
Encore Service Department
